2021 – Sistra Data Collaboration (Window 3)

The 2021 Data Collaboration Attainment 8 and Value Added estimates were created from the results of teacher-assessed grades, due to changes to Exams for 20/21. As such, it's worthwhile keeping this in mind when analysing P8 and VA figures for cohorts using this data. These are the first set of estimates to be calculated using KS2 Scaled Scores, in lieu of official DfE figures.
